## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Gascoyne et al. (5,898,356).

Gascoyne et al. teaches a battery device comprising:

a plurality of batteries connected in series (col. 1, line 23);

a bypass for functioning as a conductive path to detour around the battery (col. 1, line 23); and

a switch for interrupting the flow of electricity into the battery (col. 1, line 25) and flow through the bypass.

Regarding claim 2, Gascoyne et al. discloses the battery device connected in series with a bypass to bypass the effected battery.

Regarding claim 3, Gascoyne et al. is inherently connected to an external circuit.

### *Allowable Subject Matter*

3. Claims 4-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 4-6 recite specific connections of a first and second fixed contacts, and a movable contact to the battery. Such claimed limitations, in their entirety, are neither disclosed nor suggested by the prior art of record. Claims 7, 8 and 9 depend on claims 4, 5 and 6, respectively.

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see attached PTO-892.
